

Low-Cost RFID IC Packaging and Assembly Workshop

A private workshop hosted by Fraunhofer-IZM and TechSearch International, Inc.

November 14, 2005
Hansastraße 27c (Fraunhofer Haus)
Munich, Germany

Speaker Instructions

Thank you for agreeing to participate in Fraunhofer IZM and TechSearch International's Low-Cost RFID IC Packaging and Assembly Workshop. The latest agenda and maps may be found on-line at <http://www.techsearchinc.com> and then click on the workshop link.

To allow time to compile and print, paper handouts for attendees, WE NEED TO RECEIVE YOUR HANDOUTS BY OCTOBER 24. Please do not use a color background on the powerpoints that you send to be included in the handout (you may, of course, use whatever colors you choose during your presentation). The pdf file will be kept secure with Fhz (Fraunhofer IZM) and TechSearch and will only be used to create the handouts and as a pdf on a downloadable website (for attendees only access) unless otherwise authorized by you.

A pdf of your presentation should be sent to Gabriele Reiner at reiner@izm-m.fraunhofer.de by October 24.

A LCD projector and an overhead will be available. Please bring the ppt file to be loaded onto a main server for your presentation.

Speakers will be given a complimentary registration for the workshop that includes the sessions, snacks, lunch and a beer reception. Please do complete and return the registration form so that we have your correct information.

If you have any questions, please contact Becky Travelstead at 512-372-8887 or Gabriele Reiner at 49-89-54759-538. Our email addresses are: becky@techsearchinc.com and reiner@izm-m.fraunhofer.de.

Best Regards,

Becky Travelstead
Gabriele Reiner
